Algeria

Chi Peng-fei, Foreign Minister:

"The Chinese Government and people have consistently supported Third World countries in their struggle to safeguard state sovereignty and independence, develop national economy, protect natural resources and oppose imperialist plunder, exploitation and control."

("Chinese Foreign Minister Chi Peng-fei Sends Reply to Algerian Foreign Minister Bouteflika," NCNA-English, Peking, February 12, 1974--SCMP 74-8/145-146)

*

Jen-min Jih-pao Editorial:

The people of China and Algeria had friendly ties in history. Since Algeria's independence, the traditional friendship between the two peoples has made encouraging progress. It should be pointed out in particular that Algeria has consistently, energetically and steadfastly stood for the restoration of the legitimate rights of the People's Republic of China in the United Nations.....

President Boumediene's current visit to China is an important event in the annals of China-Algeria friendship. We are convinced that the visit will further promote the friendly relations and cooperation between the two countries and the friendship between the two peoples.....

("Jen-min Jih-pao Editorial: Warm Welcome to President Houari Boumediene," NCNA-English, Peking, February 25, 1974--SCMP 74-10/156-158)

*

Chou En-lai, Premier:

... The Chinese people have always had a sincere friendship and high esteem for the heroic and militant Algerian people... As always, the Chinese Government and people will firmly support the people of Arab countries and Palestine in their just struggle to recover their lost territories and regain their national rights....

Both China and Algeria belong to the Third World. In the long struggle against imperialism and colonialism, our two peoples have always sympathized with and supported each other and have forged a profound militant friendship. The friendly relations and cooperation between our two countries have developed steadily on the basis of the five principles of peaceful coexistence. We express heartfelt thanks to the Algerian Government for the unremitting efforts it made in restoring to China her legitimate rights in the United Nations and all the organizations related to it. We are convinced

that the current visit of His Excellency President Boumediene to China will make a positive contribution to further enhancing the friendship between our two peoples and the friendly relations and cooperation between our two countries and to the Third World's common cause of unity against imperialism.

("Premier Chou En-lai's Speech," NCNA-English, Peking, February 26, 1974--SCMP 74-10/195-198)

Chi Peng-fei, Foreign Minister:

We are glad to see that since the establishment of the diplomatic relations, there have been frequent contacts between the governments and peoples of the two countries, and the mutual understanding between the two peoples has been deepened. Facts show that the friendship between the Chinese and Japanese peoples has a solid and broad foundation.... The China-Japan joint statement declares that neither of the two countries should seek hegemony in the Asia-Pacific region and each country is opposed to efforts by any other country or group of countries to establish such hegemony.... Although China and Japan have different social systems, they can certainly overcome all obstacles and continue to consolidate and develop the good-neighborly and friendly relations between the two countries so that our two peoples will continue to live in friendship provided the two sides scrupulously observe the spirit and principles of the China-Japan joint statement and handle the problems facing us through friendly consultations.

Zambia

Jen-min Jih-pao Editorial:

The Chinese people always regard the African people as their comrades-in-arms. We have supported and helped each other all along in the common struggle against imperialism and colonialism. The Zambian Government and people unswervingly supported the restoration to China her legitimate rights in the United Nations; they have consistently supported China's socialist construction and praised the tremendous victories of China's great proletarian cultural revolution. We express heartfelt thanks to the Zambian Government and people for their profound friendship.

Although China and Zambia are separated by oceans, there has always been a traditional friendship between the two peoples. Since the establishment of diplomatic relations between China and Zambia, the contacts between the two countries and the friendship between the two peoples have been growing steadily and their friendly relations of co-operation have been constantly consolidated and developed. ... We are deeply convinced that the current visit to China of President and Mrs. Kaunda will further develop the friendly relations of cooperation between China and Zambia and the friendship between the two peoples.

("Jen-min Jih-pao Editorial: Warm Welcome to President K.D. Kaunda," NCNA-English, Peking, February 21, 1974--SCMP 74-9/176-177)

*

Chou En-lai, Premier:

China and Zambia are both developing countries belonging to the Third World. In the struggle against imperialism, colonialism and racism and for national independence and liberation, our two peoples have always sympathized with and supported each other and forged a profound friendship. Since the establishment of diplomatic relations, the friendly relations and cooperation between our two countries have been steadily consolidated and developed on the basis of the five principles of peaceful coexistence, and the militant unity of our two peoples has grown from strength to strength. The fact that His Excellency the President and Madame, slighting the fatigue of a long journey, have come for their second visit to China is a full expression of trust in and friendship for the Chinese people. We are deeply moved by this. We are confident that the current visit will be a significant new milestone in the history of the friendly relations and cooperation between China and Zambia and the friendship between our two peoples.

("Premier Chou En-lai's Speech at Peking Banquet," NCNA-English, Peking, February 21, 1974--SCMP 74-10/44-47)
